**NOTES TO CONDENSED FINANCIAL STATEMENTS**  
**(UNAUDITED)**

**Note 1 — Description of Organization, Business Operations and Basis of Presentation**

***Organization and General***

H.I.G. Acquisition Corp. (the “Company”) was incorporated as a Cayman Islands exempted company on September 2, 2020. The Company was formed for the purpose of effecting a merger, share exchange, asset acquisition, share purchase, reorganization or similar business combination with one or more businesses or entities (the “Business Combination”).

As of June 30, 2021, the Company had not commenced any operations. All activity for the period from September 2, 2020 (inception) through June 30, 2021 relates to the Company’s formation, the initial public offering (the “Initial Public Offering”) and, since the closing of the Initial Public Offering, the search for a prospective initial Business Combination.

The Company’s sponsor is H.I.G. Acquisition Advisors, LLC, a Cayman Islands limited liability company (the “Sponsor”). The registration statement for the Initial Public Offering was declared effective on October 20, 2020. The Company consummated the Initial Public Offering of 32,500,000 units (the “Units”) on October 23, 2020. Each Unit consisted of one Class A ordinary share and one-third of one redeemable warrant (“Public Warrant”). Each whole Public Warrant entitles the holder to purchase one Class A ordinary share at an exercise price of \$11.50 per share, subject to adjustment. The Units were sold at a price of \$10.00 per Unit, generating gross proceeds to the Company of \$325.0 million. The Company granted the underwriters in the Initial Public Offering (the “Underwriters”) a 45-day option to purchase up to 4,875,000 additional Units to cover over-allotments, if any. On November 25, 2020, the Underwriters partially exercised the over-allotment option and on December 1, 2020, purchased an additional 3,894,500 Units (the “Over-Allotment Units”), generating gross proceeds of approximately \$38.9 million, and incurred additional offering costs of approximately \$2.1 million in underwriting fees (inclusive of approximately \$1.4 million in deferred underwriting fees) (the “Over-Allotment”).

Simultaneously with the closing of the Initial Public Offering on October 23, 2020, the Company completed the first closing of the private placement (the “Private Placement”) and sold an aggregate 5,666,667 warrants (each, a “Private Placement Warrant, and together, the “Private Placement Warrants”) at a price of \$1.50 per Private Placement Warrant to the Sponsor, generating proceeds of \$8.5 million. Simultaneously with the closing of the Over-Allotment on December 1, 2020, the Company consummated the second closing of the Private Placement, resulting in the purchase of an aggregate of an additional 519,267 Private Placement Warrants by the sponsor, generating gross proceeds to the Company of approximately \$0.8 million.

Upon the closing of the Initial Public Offering, the Over-Allotment and the Private Placements, approximately \$363.9 million (\$10.00 per Unit) of the net proceeds of the sale of the Units in the Initial Public Offering, the Over-Allotment and the Private Placements were placed in a trust account (“Trust Account”) with Continental Stock Transfer & Trust Company acting as trustee and invested in money market funds investing solely in U.S. Treasuries and meeting certain conditions under Rule 2a-7 under the Investment Company Act, as determined by the Company, until the earlier of: (i) the completion of a Business Combination and (ii) the distribution of the Trust Account as described below.

The Company’s management has broad discretion with respect to the specific application of the net proceeds of the Initial Public Offering, the Over-Allotment and the sale of Private Placement Warrants, although substantially all of the net proceeds are intended to be applied generally toward consummating a Business Combination. There is no assurance that the Company will be able to complete a Business Combination successfully. The Company must complete one or more initial Business Combinations having an aggregate fair market value of at least 80% of the net assets held in the Trust Account (excluding the deferred underwriting commissions and taxes payable on income earned on the Trust Account) at the time of the signing of a definitive agreement in connection with the initial Business Combination. However, the Company will only complete a Business Combination if the post-transaction company owns or acquires 50% or more of the outstanding voting securities of the target or otherwise acquires a controlling interest in the target sufficient for it not to be required to register as an investment company under the Investment Company Act of 1940, as amended, (the “Investment Company Act”).

The Company will provide the holders of its Class A ordinary shares (the “Public Shareholders”), par value \$0.0001, sold in the Initial Public Offering (the “Public Shares”), with the opportunity to redeem all or a portion of their Public

**H.I.G. ACQUISITION CORP.**  
**NOTES TO CONDENSED FINANCIAL STATEMENTS**  
**(UNAUDITED)**

Shares upon the completion of a Business Combination either (i) in connection with a shareholder meeting called to approve the Business Combination or (ii) by means of a tender offer. The decision as to whether the Company will seek shareholder approval of a Business Combination or conduct a tender offer will be made by the Company, solely in its discretion. The Public Shareholders will be entitled to redeem their Public Shares for a pro rata portion of the amount then in the Trust Account (initially anticipated to be \$10.00 per Public Share). The per-share amount to be distributed to Public Shareholders who redeem their Public Shares will not be reduced by the deferred underwriting commissions the Company will pay to the underwriters (as discussed in Note 5). These Public Shares have been classified as temporary equity in accordance with the Financial Accounting Standards Board's ("FASB") Accounting Standards Codification ("ASC") Topic 480 "Distinguishing Liabilities from Equity." In such case, the Company will proceed with a Business Combination if the Company has net tangible assets of at least \$5,000,001 upon such consummation of a Business Combination, only if a majority of the ordinary shares, represented in person or by proxy and entitled to vote thereon, voted at a shareholder meeting are voted in favor of the Business Combination. If a shareholder vote is not required by law or stock exchange listing requirements and the Company does not decide to hold a shareholder vote for business or other reasons, the Company will, pursuant to the amended and restated memorandum and articles of association (the "Amended and Restated Memorandum and Articles of Association"), conduct the redemptions pursuant to the tender offer rules of the U.S. Securities and Exchange Commission ("SEC") and file tender offer documents with the SEC prior to completing a Business Combination. If, however, shareholder approval of the transactions is required by law, or the Company decides to obtain shareholder approval for business or other reasons, the Company will offer to redeem shares in conjunction with a proxy solicitation pursuant to the proxy rules and not pursuant to the tender offer rules. Additionally, each Public Shareholder may elect to redeem their Public Shares irrespective of whether they vote for or against or vote at all for the proposed transaction. If the Company seeks shareholder approval in connection with a Business Combination, the Company's Sponsor and each member of the Company's management team have agreed to vote their Founder Shares (as defined below in Note 4) and any Public Shares purchased during or after the Initial Public Offering in favor of a Business Combination.

Notwithstanding the foregoing, if the Company seeks shareholder approval of the initial Business Combination and the Company does not conduct redemptions in connection with the Business Combination pursuant to the tender offer rules, the Amended and Restated Memorandum and Articles of Association provide that a Public Shareholder, together with any affiliate of such shareholder or any other person with whom such shareholder is acting in concert or as a "group" (as defined under Section 13 of the Securities Exchange Act of 1934, as amended (the "Exchange Act")), will be restricted from redeeming its shares with respect to more than an aggregate of 15% of the shares sold in the Initial Public Offering, without the prior consent of the Company.

The Company's Sponsor, executive officers, directors and any director nominees, if applicable, agree not to propose an amendment to the Amended and Restated Memorandum and Articles of Association (a) that would modify the substance or timing of the Company's obligation to redeem 100% of its Public Shares if the Company does not complete a Business Combination within 24 months from the closing of the Initial Public Offering, or October 23, 2022 (the "Combination Period") or (b) with respect to any other provision relating to shareholders' rights or pre-initial Business Combination activity, unless the Company provides the Public Shareholders with the opportunity to redeem their Class A ordinary shares in conjunction with any such amendment.

If the Company is unable to complete a Business Combination within the Combination Period, the Company will (i) cease all operations except for the purpose of winding up; (ii) as promptly as reasonably possible but not more than ten business days thereafter, redeem the Public Shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the Trust Account, including interest earned on the funds held in the Trust Account and not previously released to the Company to pay its income taxes, if any (less up to \$100,000 of interest to pay dissolution expenses) divided by the number of the then-outstanding Public Shares, which redemption will completely extinguish Public Shareholders' rights as shareholders (including the right to receive further liquidation distributions, if any); and (iii) as promptly as reasonably possible following such redemption, subject to the approval of the remaining shareholders and the board of directors, liquidate and dissolve, subject in the case of clauses (ii) and (iii), to the Company's obligations under Cayman Islands law to provide for claims of creditors and the requirements of other applicable law.

The Sponsor and each member of the Company's management team has agreed to waive their rights to liquidating distributions with respect to the Founder Shares if the Company fails to complete a Business Combination within the Combination Period. However, if the Sponsor or members of the Company's management team acquire Public Shares

**H.I.G. ACQUISITION CORP.**  
**NOTES TO CONDENSED FINANCIAL STATEMENTS**  
**(UNAUDITED)**

in or after the Initial Public Offering, they will be entitled to liquidating distributions from the Trust Account with respect to such Public Shares if the Company fails to complete a Business Combination within the Combination Period. The underwriters have agreed to waive their rights to their deferred underwriting commission (see Note 5) held in the Trust Account in the event the Company does not complete a Business Combination within the Combination Period and, in such event, such amounts will be included with the other funds held in the Trust Account that will be available to fund the redemption of the Public Shares. In the event of such distribution, it is possible that the per share value of the residual assets remaining available for distribution in the Trust Account will be less than the \$10.00 per share initially held in the Trust Account. In order to protect the amounts held in the Trust Account, the Sponsor has agreed that it will be liable to the Company if and to the extent any claims by a third party for services rendered or products sold to the Company, or a prospective target business with which the Company has entered into a written letter of intent, confidentiality or other similar agreement or Business Combination agreement, reduce the amount of funds in the Trust Account to below the lesser of (i) \$10.00 per Public Share and (ii) the actual amount per Public Share held in the Trust Account as of the date of the liquidation of the Trust Account, if less than \$10.00 per share due to reductions in the value of the Trust assets, in each case net of the interest that may be withdrawn to pay the Company's tax obligations, provided that such liability will not apply to any claims by a third party or prospective target business who executed a waiver of any and all rights to the monies held in the Trust Account (whether or not such waiver is enforceable) nor will it apply to any claims under the Company's indemnity of the underwriters of the Initial Public Offering against certain liabilities, including liabilities under the Securities Act of 1933, as amended (the "Securities Act"). Moreover, in the event that an executed waiver is deemed to be unenforceable against a third party, the Sponsor will not be responsible to the extent of any liability for such third-party claims. The Company will seek to reduce the possibility that the Sponsor will have to indemnify the Trust Account due to claims of creditors by endeavoring to have all vendors, service providers (other than the Company's independent registered public accounting firm), prospective target businesses or other entities with which the Company does business, execute agreements with the Company waiving any right, title, interest or claim of any kind in or to monies held in the Trust Account.

***Going Concern Consideration***

As of June 30, 2021, the Company had \$4,461 in its operating bank accounts and working capital deficit of \$925,819. Further, the Company has incurred and expects to continue to incur significant costs in pursuit of its acquisition plans.

Through June 30, 2021, the Company's liquidity needs have been satisfied through a payment of \$25,000 from the Sponsor to pay for certain offering costs in exchange for issuance of the Founder Shares (as defined in Note 4), the loan under the Note of approximately \$237,000 (see Note 4), and the net proceeds from the consummation of the Private Placement not held in the Trust Account. The Company fully repaid the Note on October 23, 2020. In addition, in order to finance transaction costs in connection with an initial Business Combination, the Company's officers, directors and initial shareholders may, but are not obligated to, provide the Company Working Capital Loans (see Note 4). As of June 30, 2021 and December 31, 2020, there were no amounts outstanding under any Working Capital Loans.

The Company does not have sufficient liquidity to meet its anticipated obligations over the next year from the issuance of these condensed financial statements. In connection with the Company's assessment of going concern considerations in accordance with FASB's Accounting Standards Update ("ASU") 2014-15, "Disclosures of Uncertainties about an Entity's Ability to Continue as a Going Concern," management has determined that the Company has access to working capital loans (as defined in Note 4) from the Sponsor that are sufficient to fund the working capital needs of the Company for at least one year from the issuance of these condensed financial statements.

Based on the foregoing, management believes that the Company will have sufficient working capital and borrowing capacity from the Sponsor or an affiliate of the Sponsor, or certain of the Company's officers and directors to meet its needs through the earlier of the consummation of a Business Combination or one year from this filing. Over this time period, the Company will be using these funds for paying existing accounts payable, identifying and evaluating prospective initial Business Combination candidates, performing due diligence on prospective target businesses, paying for travel expenditures, selecting the target business to merge with or acquire, and structuring, negotiating and consummating the Business Combination.

**H.I.G. ACQUISITION CORP.**  
**NOTES TO CONDENSED FINANCIAL STATEMENTS**  
**(UNAUDITED)**

***Basis of presentation***

The accompanying unaudited condensed financial statements are presented in U.S. dollars in conformity with accounting principles generally accepted in the United States of America (“GAAP”) for financial information and pursuant to the rules and regulations of the SEC. Accordingly, they do not include all of the information and footnotes required by GAAP. In the opinion of management, the unaudited condensed financial statements reflect all adjustments, which include only normal recurring adjustments necessary for the fair statement of the balances and results for the periods presented. Operating results for the three and six months ended June 30, 2021 are not necessarily indicative of the results that may be expected through December 31, 2021.

The accompanying unaudited condensed financial statements should be read in conjunction with the audited financial statements and notes thereto included in the Form 10-K/A filed by the Company with the SEC on May 24, 2021.

***Emerging growth company***

As an emerging growth company, the Company may take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not emerging growth companies including, but not limited to, not being required to comply with the auditor attestation requirements of Section 404 of the Sarbanes-Oxley Act of 2002, reduced disclosure obligations regarding executive compensation in its periodic reports and proxy statements, and exemptions from the requirements of holding a nonbinding advisory vote on executive compensation and shareholder approval of any golden parachute payments not previously approved.

Further, Section 102(b)(1) of the JOBS Act exempts emerging growth companies from being required to comply with new or revised financial accounting standards until private companies (that is, those that have not had a Securities Act registration statement declared effective or do not have a class of securities registered under the Exchange Act) are required to comply with the new or revised financial accounting standards. The JOBS Act provides that an emerging growth company can elect to opt out of the extended transition period and comply with the requirements that apply to non-emerging growth companies but any such election to opt out is irrevocable. The Company has elected not to opt out of such extended transition period which means that when a standard is issued or revised and it has different application dates for public or private companies, the Company, as an emerging growth company, can adopt the new or revised standard at the time private companies adopt the new or revised standard.

This may make comparison of the Company’s financial statement with another public company that is neither an emerging growth company nor an emerging growth company that has opted out of using the extended transition period difficult or impossible because of the potential differences in accounting standards used.

**Note 2 — Summary of Significant Accounting Policies**

***Use of Estimates***

The preparation of the unaudited condensed financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the unaudited condensed financial statements and the reported amounts of revenues and expenses during the reporting period.

Making estimates requires management to exercise significant judgment. It is at least reasonably possible that the estimate of the effect of a condition, situation or set of circumstances that existed at the date of the financial statements, which management considered in formulating its estimate, could change in the near term due to one or more future confirming events. One of the more significant accounting estimates included in these unaudited condensed financial statements is the determination of the fair value of the warrant liability. Such estimates may be subject to change as more current information becomes available and accordingly the actual results could differ significantly from those estimates.

***Cash and Cash Equivalents***

The Company considers all short-term investments with an original maturity of three months or less when purchased to be cash equivalents. As of June 30, 2021 and December 31, 2020, the Company had no cash equivalents, respectively.

**H.I.G. ACQUISITION CORP.**  
**NOTES TO CONDENSED FINANCIAL STATEMENTS**  
**(UNAUDITED)**

***Concentration of Credit Risk***

Financial instruments that potentially subject the Company to concentrations of credit risk consist of cash accounts in a financial institution, which, at times, may exceed the Federal Depository Insurance Coverage limit of \$250,000. As of June 30, 2021, the Company has not experienced losses on these accounts and management believes the Company is not exposed to significant risks on such accounts.

***Investments Held in the Trust Account***

The Company's portfolio of investments held in the Trust Account can be comprised of investments in mutual funds invested in government securities, within the meaning set forth in Section 2(a)(16) of the Investment Company Act, with a maturity of 185 days or less, or investments in mutual funds that invest in U.S. government securities, or a combination thereof. The Company's investments held in the Trust Account are presented on the condensed balance sheet at fair value at the end of each reporting period. Gains and losses resulting from the change in fair value of these securities is included in net gain from investments held in Trust Account in the accompanying condensed statements of operations. The estimated fair values of investments held in the Trust Account are determined using available market information, other than for investments in open-ended money market funds with published daily net asset values ("NAV"), in which case the Company uses NAV as a practical expedient to fair value. The NAV on these investments is typically held constant at \$1.00 per unit.

***Fair Value of Financial Instruments***

The fair value of the Company's assets and liabilities, which qualify as financial instruments under the FASB ASC 820, "Fair Value Measurements and Disclosures," approximates the carrying amounts represented in the condensed balance sheets except for derivative warrant liabilities (see Note 8).

***Fair Value Measurements***

Fair value is defined as the price that would be received for sale of an asset or paid for transfer of a liability, in an orderly transaction between market participants at the measurement date. GAAP establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). These tiers include:

- Level 1, defined as observable inputs such as quoted prices (unadjusted) for identical instruments in active markets;
- Level 2, defined as inputs other than quoted prices in active markets that are either directly or indirectly observable such as quoted prices for similar instruments in active markets or quoted prices for identical or similar instruments in markets that are not active; and
- Level 3, defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions, such as valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable.

In some circumstances, the inputs used to measure fair value might be categorized within different levels of the fair value hierarchy. In those instances, the fair value measurement is categorized in its entirety in the fair value hierarchy based on the lowest level input that is significant to the fair value measurement.

As of June 30, 2021, the carrying values of cash, prepaid expenses, accounts payable, accrued expenses, and due to related party approximate their fair values due to the short-term nature of the instruments. The Company's marketable securities held in Trust Account is comprised of investments in U.S. Treasury securities with an original maturity of 185 days or less and are recognized at fair value. The fair value of marketable securities held in Trust Account is determined using quoted prices in active markets.

The Company's warrant liabilities are based on a valuation model utilizing management judgment and pricing inputs from observable and unobservable markets with less volume and transaction frequency than active markets. Significant deviations from these estimates and inputs could result in a material change in fair value. In some circumstances, the inputs used to measure fair value might be categorized within different levels of the fair value hierarchy. In those instances, the fair value measurement is categorized in its entirety in the fair value hierarchy based on the lowest level input that is significant to the fair value measurement. See Note 8 for additional information on assets and liabilities measured at fair value.

***Offering Costs Associated with the Initial Public Offering***

Offering costs consisted of legal, accounting, underwriting fees and other costs incurred that were directly related to the Initial Public Offering. Offering costs are allocated to the separable financial instruments issued in the Initial Public

**H.I.G. ACQUISITION CORP.**  
**NOTES TO CONDENSED FINANCIAL STATEMENTS**  
**(UNAUDITED)**

Offering based on a relative fair value basis, compared to total proceeds received. Offering costs associated with derivative warrant liabilities are expensed as incurred, presented as non-operating expenses in the condensed statements of operations. Offering costs associated with the Public Shares were charged to shareholders' equity upon the completion of the Initial Public Offering.

***Derivative warrant liabilities***

The Company does not use derivative instruments to hedge exposures to cash flow, market, or foreign currency risks. The Company evaluates all of its financial instruments, including issued stock purchase warrants, to determine if such instruments are derivatives or contain features that qualify as embedded derivatives, pursuant to ASC 480 and ASC 815-15. The classification of derivative instruments, including whether such instruments should be recorded as liabilities or as equity, is re-assessed at the end of each reporting period.

The warrants issued in connection with the Initial Public Offering (the "Public Warrants") and the Private Placement Warrants (which are discussed in Notes 3, 4, 6, and 8) are recognized as derivative liabilities in accordance with ASC 815-40. Accordingly, the Company recognizes the warrant instruments as liabilities at fair value and adjusts the instruments to fair value at each reporting period. The liabilities are subject to re-measurement at each balance sheet date until exercised, and any change in fair value is recognized in the Company's condensed statements of operations. The fair value of the Public Warrants issued in connection with the Public Offering and Private Placement Warrants were initially measured at fair value using a Monte Carlo simulation model and subsequently, the fair value of the Private Placement Warrants have been determined using the traded value of the Public Warrants each measurement date, as the Private Placement Warrants have substantially the same terms as the Public Warrants due to the make-whole provision in the warrant agreement. The fair value of Public Warrants issued in connection with the Initial Public Offering have subsequently been measured based on the listed market price of such warrants.

***Class A Ordinary Shares Subject to Possible Redemption***

Class A ordinary shares subject to mandatory redemption (if any) are classified as liability instruments and are measured at fair value. Conditionally redeemable Class A ordinary shares (including Class A ordinary shares that feature redemption rights that are either within the control of the holder or subject to redemption upon the occurrence of uncertain events not solely within the Company's control) are classified as temporary equity. At all other times, Class A ordinary shares are classified as shareholders' equity. The Company's Class A ordinary shares feature certain redemption rights that are considered to be outside of the Company's control and subject to occurrence of uncertain future events. Accordingly, at June 30, 2021 and December 31, 2020, 32,442,357 and 32,318,763 Class A ordinary shares subject to possible redemption at the redemption amount were presented at redemption value as temporary equity, respectively, outside of the shareholders' equity section of the Company's condensed balance sheets.

***Income Taxes***

FASB ASC Topic 740 "Income Taxes" prescribes a recognition threshold and a measurement attribute for the financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return. For those benefits to be recognized, a tax position must be more likely than not to be sustained upon examination by taxing authorities. There were no unrecognized tax benefits as of June 30, 2021 and December 31, 2020. The Company's management determined that the Cayman Islands is the Company's only major tax jurisdiction. The Company recognizes accrued interest and penalties related to unrecognized tax benefits as income tax expense. No amounts were accrued for the payment of interest and penalties as of June 30, 2021 and December 31, 2020. The Company is currently not aware of any issues under review that could result in significant payments, accruals or material deviation from its position. The Company is subject to income tax examinations by major taxing authorities since inception.

There is currently no taxation imposed on income by the Government of the Cayman Islands. In accordance with Cayman income tax regulations, income taxes are not levied on the Company. Consequently, income taxes are not reflected in the Company's financial statements. The Company's management does not expect that the total amount of unrecognized tax benefits will materially change over the next twelve months.

**H.I.G. ACQUISITION CORP.**  
**NOTES TO CONDENSED FINANCIAL STATEMENTS**  
**(UNAUDITED)**

***Net Income (Loss) per Ordinary Share***

The Company complies with accounting and disclosure requirements of FASB ASC Topic 260, "Earnings Per Share." Net income (loss) per common share is computed by dividing net income (loss) by the weighted average number of shares of ordinary shares outstanding during the period. The Company has not considered the effect of the warrants sold in the Initial Public Offering and Private Placement to purchase an aggregate of 18,317,434 shares of the Company's ordinary shares in the calculation of diluted loss per share, since the exercise of the warrants are contingent upon the occurrence of future events and the inclusion of such warrants would be anti-dilutive.

The Company's unaudited condensed statements of operations include a presentation of income per share for ordinary shares subject to redemption in a manner similar to the two-class method of income per share. Net income per share, basic and diluted for Class A ordinary shares is calculated by dividing the investment income earned on the Trust Account of approximately \$9,075 and \$18,049 for the three and six months ended June 30, 2021 by the weighted average number of Class A ordinary shares outstanding for the period. Net income per share for the three and six months ended June 30, 2021, basic and diluted for Class B ordinary shares is calculated by dividing the net income (loss) of approximately (\$2.2) million and \$1.2 million, less income attributable to Class A ordinary shares, by the weighted average number of Class B ordinary shares outstanding for the period.

***Recently Issued Accounting Standards***

In August 2020, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2020-06, Debt — Debt with Conversion and Other Options (Subtopic 470-20) and Derivatives and Hedging — Contracts in Entity's Own Equity (Subtopic 815-40) ("ASU 2020-06") to simplify accounting for certain financial instruments. ASU 2020-06 eliminates the current models that require separation of beneficial conversion and cash conversion features from convertible instruments and simplifies the derivative scope exception guidance pertaining to equity classification of contracts in an entity's own equity. The new standard also introduces additional disclosures for convertible debt and freestanding instruments that are indexed to and settled in an entity's own equity. ASU 2020-06 amends the diluted earnings per share guidance, including the requirement to use the if-converted method for all convertible instruments. ASU 2020-06 is effective January 1, 2022 and should be applied on a full or modified retrospective basis, with early adoption permitted beginning on January 1, 2021. The Company is currently assessing the impact, if any, that ASU 2020-06 would have on its financial position, results of operations or cash flows.

Management does not believe that any other recently issued, but not yet effective, accounting standards, if currently adopted, would have a material effect on the Company's financial statements.

**Note 3 — Initial Public Offering**

On October 23, 2020, the Company consummated the Initial Public Offering of 32,500,000 Units, at \$10.00 per Unit, generating gross proceeds of \$325.0 million, and incurring offering costs of approximately \$18.6 million, inclusive of approximately \$11.4 million in deferred underwriting commissions. The underwriter is granted a 45-day option from the date of the final prospectus relating to the Initial Public Offering to purchase up to 4,875,000 additional Units to cover over-allotments, if any, at \$10.00 per Unit. On November 25, 2020, the underwriters partially exercised the over-allotment option and on December 1, 2020, purchased an additional 3,894,500 Over-Allotment Units, generating gross proceeds of approximately \$38.9 million, and incurring additional offering costs of approximately \$2.1 million in underwriting fees (inclusive of approximately \$1.4 million in deferred underwriting fees).

Each Unit consists of one Class A ordinary share, and one-third of one redeemable warrant (each, a "Public Warrant"). Each Public Warrant entitles the holder to purchase one Class A ordinary share at a price of \$11.50 per share, subject to adjustment (see Note 6).

**Note 4 — Related Party Transactions**

***Founder Shares***

On September 3, 2020, the Sponsor paid \$25,000 to cover certain expenses on behalf of the Company in exchange for issuance of 19,406,250 Class B ordinary shares, par value \$0.0001, (the "Founder Shares"). On September 28, 2020, the Sponsor effected a surrender of 6,468,750 Founder Shares to the Company for no consideration. On October 15, 2020, the Sponsor effected a surrender of 3,593,750 Founder Shares to the Company for no consideration, resulting in a decrease in the total number of Class B ordinary shares outstanding to 9,343,750 shares. All shares and associated per share amounts have been retroactively restated to reflect all shares surrendered. The Sponsor agreed to forfeit up to 1,218,750 Founder Shares to the extent that the over-allotment option is not exercised in full by the underwriters, so that the Founder Shares will represent 20.0% of the Company's issued and outstanding shares after the Initial Public Offering. The underwriters partially exercised their over-allotment option on November 25, 2020; thus, only 245,125 shares of Class B ordinary shares were forfeited in conjunction with the underwriters' partial exercise of the over-allotment. The Sponsor transferred to four independent directors of the Company an aggregate of 35,000 Founder Shares each, for a total of 140,000 shares, in September 2020.

The Sponsor and the Company's directors and executive officers have agreed, subject to limited exceptions, not to transfer, assign or sell any of their Founder Shares until the earlier to occur of: (a) one year after the completion of the

**H.I.G. ACQUISITION CORP.**  
**NOTES TO CONDENSED FINANCIAL STATEMENTS**  
**(UNAUDITED)**

initial Business Combination and (b) subsequent to the initial Business Combination, (x) if the closing price of Class A ordinary shares equals or exceeds \$12.00 per share (as adjusted for share subdivisions, share capitalizations, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after the initial Business Combination or (y) the date on which the Company completes a liquidation, merger, share exchange or other similar transaction that results in all of the Public Shareholders having the right to exchange their Class A ordinary shares for cash, securities or other property.

***Private Placement Warrants***

Simultaneously with the closing of the Initial Public Offering on October 23, 2020, the Company completed the Private Placement of an aggregate of 5,666,667 Private Placement Warrants at a price of \$1.50 per Private Placement Warrant to the Sponsor, generating proceeds of \$8.5 million. Simultaneously with the closing of the Over-Allotment on December 1, 2020, the Company consummated the second closing of the Private Placement, resulting in the purchase of an aggregate of an additional 519,267 Private Placement Warrants by the Sponsor, generating gross proceeds to the Company of approximately \$0.8 million.

Each whole Private Placement Warrant is exercisable for one whole Class A ordinary share at a price of \$1.50 per share. The proceeds from the Private Placement Warrants are added to the proceeds from the Initial Public Offering to be held in the Trust Account. If the Company does not complete a Business Combination within the Combination Period, the Private Placement Warrants will expire worthless. The Private Placement Warrants are non-redeemable by the Company and exercisable on a cashless basis so long as they are held by the Sponsor or its permitted transferees, subject to limited exceptions.

The Sponsor and the Company's officers and directors agreed, subject to limited exceptions, not to transfer, assign or sell any of their Private Placement Warrants until 30 days after the completion of the initial Business Combination.

***Related Party Loans***

On September 3, 2020, the Sponsor agreed to loan the Company an aggregate of up to \$300,000 to cover expenses related to the Initial Public Offering pursuant to a promissory note (the "Note"). This loan is non-interest bearing and payable upon the completion of the Initial Public Offering. The Company borrowed approximately \$237,000 under the Note. The Company repaid this Note in full on October 23, 2020. As of June 30, 2021, the related party note is no longer available to the Company.

In order to finance transaction costs in connection with a Business Combination, the Sponsor or an affiliate of the Sponsor, or certain of the Company's officers and directors may, but are not obligated to, loan the Company funds as may be required ("Working Capital Loans"). If the Company completes a Business Combination, the Company may repay the Working Capital Loans out of the proceeds of the Trust Account released to the Company. Otherwise, the Working Capital Loans may be repaid only out of funds held outside the Trust Account. In the event that a Business Combination does not close, the Company may use a portion of the proceeds held outside the Trust Account to repay the Working Capital Loans but no proceeds held in the Trust Account would be used to repay the Working Capital Loans. Except for the foregoing, the terms of such Working Capital Loans, if any, have not been determined and no written agreements exist with respect to such loans. The Working Capital Loans would either be repaid upon consummation of a Business Combination, without interest, or, at the lender's discretion, up to \$4.5 million of such Working Capital Loans may be convertible into warrants of the post Business Combination entity at a price of \$1.50 per warrant. The warrants would be identical to the Private Placement Warrants. As of June 30, 2021 and December 31, 2020, the Company had \$21,683 and \$0 borrowings under the Working Capital Loans.

***Administrative Services Agreement***

On October 23, 2020, the Company entered into an agreement to pay the Sponsor a total of \$10,000 per month for office space, secretarial and administrative services. Upon completion of the initial Business Combination or the Company's liquidation, the Company will cease paying these monthly fees. For the three and six months ended June 30, 2021, the Company incurred approximately \$30,000 and \$60,000, respectively, for these services which is included in Administrative expenses — related party on the accompanying condensed statements of operations. There was approximately \$84,000 and \$24,000 outstanding balance in accounts payable under the agreement as of June 30, 2021 and December 31, 2020, respectively.

**H.I.G. ACQUISITION CORP.**  
**NOTES TO CONDENSED FINANCIAL STATEMENTS**  
**(UNAUDITED)**

**Note 5 — Commitments and Contingencies**

***Registration and Shareholder Rights***

The holders of Founder Shares, Private Placement Warrants and warrants that may be issued upon conversion of Working Capital Loans (and any Class A ordinary shares issuable upon the exercise of the Private Placement Warrants and warrants that may be issued upon conversion of Working Capital Loans) are entitled to registration rights pursuant to a registration and shareholder rights agreement. These holders will be entitled to certain demand and “piggyback” registration rights. However, the registration and shareholder rights agreement provide that the Company will not permit any registration statement filed under the Securities Act to become effective until the termination of the applicable lock-up period for the securities to be registered. The Company will bear the expenses incurred in connection with the filing of any such registration statements.

***Underwriting Agreement***

The Company granted the underwriters a 45-day option from the final prospectus relating to the Initial Public Offering to purchase up to 4,875,000 additional Units to cover over-allotments, if any, at the Initial Public Offering price less the underwriting discounts and commissions. On November 25, 2020, the underwriters partially exercised the over-allotment option and on December 1, 2020, purchased an additional 3,894,500 Over-Allotment Units, generating gross proceeds of approximately \$38.9 million, and incurring additional offering costs of approximately \$2.1 million in underwriting fees (inclusive of approximately \$1.4 million in deferred underwriting fees).

The underwriters were entitled to an underwriting discount of \$0.20 per unit, or \$7.3 million in the aggregate, paid upon the closing of the Initial Public Offering and Over-Allotment. In addition, \$0.35 per unit, or approximately \$12.7 million in the aggregate will be payable to the underwriters for deferred underwriting commissions. The deferred fee will become payable to the underwriters from the amounts held in the Trust Account solely in the event that the Company completes a Business Combination, subject to the terms of the underwriting agreement.

***Risks and Uncertainties***

Management continues to evaluate the impact of the COVID-19 pandemic on the industry and has concluded that while it is reasonably possible that the virus could have a negative effect on the Company’s financial position, results of its operations and/or search for a partner company, the specific impact is not readily determinable as of the date of the unaudited condensed financial statements. The unaudited condensed financial statements do not include any adjustments that might result from the outcome of this uncertainty.

**Note 6 — Derivative Warrant Liabilities**

As of June 30, 2021 and December 31, 2020, the Company has 12,131,500 and 6,185,934 Public Warrants and Private Placement Warrants, respectively, outstanding.

Public Warrants may only be exercised for a whole number of shares. The Public Warrants will become exercisable on the later of (a) 30 days after the completion of a Business Combination or (b) 12 months from the closing of the Initial Public Offering; provided in each case that the Company has an effective registration statement under the Securities Act covering the Class A ordinary shares issuable upon exercise of the Public Warrants and a current prospectus relating to them is available (or the Company permits holders to exercise their Public Warrants on a cashless basis and such cashless exercise is exempt from registration under the Securities Act). The Company has agreed that as soon as practicable, but in no event later than twenty (20) business days after the closing of the initial Business Combination, the Company will use its commercially reasonable efforts to file with the SEC a registration statement covering the Class A ordinary shares issuable upon exercise of the warrants, and the Company will use its commercially reasonable efforts to cause the same to become effective within 60 business days after the closing of the initial Business Combination, and to maintain the effectiveness of such registration statement and a current prospectus relating to those Class A ordinary shares until the warrants expire or are redeemed, as specified in the warrant agreement provided that if the Class A ordinary shares are at the time of any exercise of a warrant not listed on a national securities exchange such that they satisfy the definition of a “covered security” under Section 18(b)(1) of the Securities Act, the Company may, at its option, require holders of Public Warrants who exercise their warrants

**H.I.G. ACQUISITION CORP.**  
**NOTES TO CONDENSED FINANCIAL STATEMENTS**  
**(UNAUDITED)**

to do so on a “cashless basis” in accordance with Section 3(a)(9) of the Securities Act and, in the event the Company so elects, it will not be required to file or maintain in effect a registration statement. If a registration statement covering the Class A ordinary shares issuable upon exercise of the warrants is not effective by the 60th day after the closing of the initial Business Combination, warrant holders may, until such time as there is an effective registration statement and during any period when the Company will have failed to maintain an effective registration statement, exercise warrants on a “cashless basis” in accordance with Section 3(a)(9) of the Securities Act or another exemption, but the Company will use its commercially reasonable efforts to register or qualify the shares under applicable blue sky laws to the extent an exemption is not available.

The warrants have an exercise price of \$11.50 per whole share, and will expire five years after the completion of a Business Combination or earlier upon redemption or liquidation.

In addition, if (x) the Company issues additional Class A ordinary shares or equity-linked securities for capital raising purposes in connection with the closing of the initial Business Combination at an issue price or effective issue price of less than \$9.20 per ordinary share (with such issue price or effective issue price to be determined in good faith by the board of directors and, in the case of any such issuance to the Sponsor or its affiliates, without taking into account any Founder Shares held by the Sponsor or such affiliates, as applicable, prior to such issuance) (the “Newly Issued Price”), (y) the aggregate gross proceeds from such issuances represent more than 60% of the total equity proceeds, and interest thereon, available for the funding of the initial Business Combination on the date of the consummation of the initial Business Combination (net of redemptions), and (z) the volume weighted average trading price of Class A ordinary shares during the 20 trading day period starting on the trading day prior to the day on which the Company consummates the initial Business Combination (such price, the “Market Value”) is below \$9.20 per share, the exercise price of the warrants will be adjusted (to the nearest cent) to be equal to 115% of the higher of the Market Value and the Newly Issued Price, the \$18.00 per share redemption trigger price described under “Redemption of warrants when the price per Class A ordinary share equals or exceeds \$18.00” and “Redemption of warrants when the price per Class A ordinary share equals or exceeds \$10.00” will be adjusted (to the nearest cent) to be equal to 80% of the higher of the Market Value and the Newly Issued Price, and the \$10.00 per share redemption trigger price described under “Redemption of warrants when the price per Class A ordinary share equals or exceeds \$10.00” will be adjusted (to the nearest cent) to be equal to the higher of the Market Value and the Newly Issued Price.

Redemption of warrants for cash when the price per Class A ordinary share equals or exceeds \$18.00.

Once the warrants become exercisable, the Company may redeem the Public Warrants for cash (except with respect to the Private Placement Warrants):

- in whole and not in part;
- at a price of \$0.01 per warrant;
- upon a minimum of 30 days’ prior written notice of redemption; and
- if, and only if, the last reported sale price (the “closing price”) of the Class A ordinary shares equals or exceeds \$8.00 per share (as adjusted for share splits, share capitalizations, reorganizations, recapitalizations and the like) for any 20 trading days within a 30-trading day period ending on the third trading day prior to the date on which the Company sends the notice of redemption to the warrant holders.

The Company will not redeem the warrants as described above unless an registration statement under the Securities Act covering the Class A ordinary shares issuable upon exercise of the warrants is effective and a current prospectus relating to those Class A ordinary shares is available throughout the 30-day redemption period. If and when the warrants become redeemable by the Company, it may exercise its redemption right even if it is unable to register or qualify the underlying securities for sale under all applicable state securities laws.

Except as set forth below, none of the Private Placement Warrants will be redeemable by the Company so long as they are held by the Sponsor or its permitted transferees.

Redemption of warrants when the price per Class A ordinary share equals or exceeds \$10.00.

Once the warrants become exercisable, the Company may redeem the outstanding Public Warrants:

- in whole and not in part;

**H.I.G. ACQUISITION CORP.**  
**NOTES TO CONDENSED FINANCIAL STATEMENTS**  
**(UNAUDITED)**

- at \$0.10 per warrant upon a minimum of 30 days' prior written notice of redemption; provided that holders will be able to exercise their warrants on a cashless basis prior to redemption and receive that number of shares based on the agreed redemption date and the "fair market value" of the Company's Class A ordinary shares;
- if, and only if, the closing price of the Company's Class A ordinary shares equals or exceeds \$0.00 per Public Share (as adjusted) for any 20 trading days within the 30-trading day period ending three trading days before the Company sends the notice of redemption to the warrant holders; and
- the closing price of the Class A ordinary shares for any 20 trading days within a 30-trading day period ending on the third trading day prior to the date on which the Company sends the notice of redemption to the warrant holders is less than \$18.00 per share (as adjusted), the Private Placement Warrants must also be concurrently called for redemption on the same terms as the outstanding Public Warrants, as described above.

The "fair market value" of the Class A ordinary shares for the above purpose shall mean the volume weighted average price of the Class A ordinary shares during the 10 trading days immediately following the date on which the notice of redemption is sent to the holders of warrants. In no event will the warrants be exercisable in connection with this redemption feature for more than 0.361 Class A ordinary shares per warrant (subject to adjustment).

If the Company has not completed the initial Business Combination within the Combination Period and the Company liquidates the funds held in the Trust Account, holders of warrants will not receive any of such funds with respect to their warrants, nor will they receive any distribution from the Company's assets held outside of the Trust Account with the respect to such warrants. Accordingly, the warrants may expire worthless.

**Note 7 — Shareholders' Equity**

**Preference Shares** — The Company is authorized to issue 1,000,000 preference shares with such designations, voting and other rights and preferences as may be determined from time to time by the Company's board of directors. As of June 30, 2021 and December 31, 2020, there were no preference shares issued or outstanding.

**Class A Ordinary Shares** — The Company is authorized to issue 950,000,000 Class A ordinary shares with a par value of \$0.0001 per share. As of June 30, 2021 and December 31, 2020, there were 36,394,500 Class A ordinary shares issued or outstanding, including 32,442,357 and 32,318,763 respectively, of Class A ordinary shares subject to possible redemption.

**Class B Ordinary Shares** — The Company is authorized to issue 95,000,000 Class B ordinary shares with a par value of \$0.0001 per share. On September 3, 2020, the Company issued 19,406,250 Class B ordinary shares to the Sponsor. On September 28, 2020, the Sponsor effected a surrender of 6,468,750 Class B ordinary shares to the Company for no consideration. On October 15, 2020, the Sponsor effected a surrender of 3,593,750 Class B ordinary shares to the Company for no consideration, resulting in a decrease in the total number of Class B ordinary shares outstanding to 9,343,750 shares. All shares and associated per share amounts have been retroactively restated to reflect the share surrenders. Of the 9,343,750 shares outstanding, up to 1,218,750 shares were subject to forfeiture to the extent that the underwriters' over-allotment option was not exercised in full or in part, so that the holders of Founder Shares prior to the Initial Public Offering will collectively own approximately 20.0% of the Company's issued and outstanding ordinary shares. The underwriters partially exercised their over-allotment option on December 1, 2020; thus, 245,125 shares of Class B ordinary shares were forfeited in conjunction with the underwriters' partial exercise of the over-allotment. (See Note 4).

Ordinary shareholders of record are entitled to one vote for each share held on all matters to be voted on by shareholders. Except as described below, holders of Class A ordinary shares and holders of Class B ordinary shares will vote together as a single class on all matters submitted to a vote of our shareholders except as required by law. The Class B ordinary shares will automatically convert into Class A ordinary shares, provided, however, that such Class A ordinary shares delivered upon conversion will not have any redemption rights or be entitled to liquidating distributions if the Company does not consummate an initial Business Combination, at the time of the initial Business Combination or earlier at the option of the holders thereof at a ratio such that the number of Class A ordinary shares issuable upon conversion of all Founder Shares will equal, in the aggregate, on an as-converted basis, 20% of the sum

**H.I.G. ACQUISITION CORP.**  
**NOTES TO CONDENSED FINANCIAL STATEMENTS**  
**(UNAUDITED)**

of (i) the total number of ordinary shares issued and outstanding upon completion of the Initial Public Offering, plus (ii) the total number of Class A ordinary shares issued or deemed issued or issuable upon conversion or exercise of any equity-linked securities or rights issued or deemed issued, by the Company in connection with or in relation to the consummation of the initial Business Combination, excluding any Class A ordinary shares or equity-linked securities exercisable for or convertible into Class A ordinary shares issued, deemed issued, or to be issued, to any seller in the initial Business Combination and any private placement warrants issued to the Sponsor, its affiliates or any member of the management team upon conversion of Working Capital Loans. In no event will the Class B ordinary shares convert into Class A ordinary shares at a rate of less than one-to-one.

**Note 8 — Fair Value Measurements**

The following table presents information about the Company's assets and liabilities that are measured at fair value on a recurring basis as of June 30, 2021 and December 31, 2020 and indicates the fair value hierarchy of the valuation techniques that the Company utilized to determine such fair value.

June 30, 2021

<u>Description</u>	<u>Quoted Prices in Active Markets (Level 1)</u>	<u>Significant Other Observable Inputs (Level 2)</u>	<u>Significant Other Unobservable Inputs (Level 3)</u>
<b>Assets:</b>			
Investments held in Trust Account	\$ 363,969,337	\$ —	\$ —
<b>Liabilities:</b>			
Derivative warrant liabilities - Public	\$ 13,829,910	\$ —	\$ —
Derivative warrant liabilities - Private	\$ —	\$ 7,051,960	\$ —

December 31, 2020

<u>Description</u>	<u>Quoted Prices in Active Markets (Level 1)</u>	<u>Significant Other Observable Inputs (Level 2)</u>	<u>Significant Other Unobservable Inputs (Level 3)</u>
<b>Assets:</b>			
Investments held in Trust Account	\$ 363,951,287	\$ —	\$ —
<b>Liabilities:</b>			
Derivative warrant liabilities - Public	\$ 15,892,270	\$ —	\$ —
Derivative warrant liabilities - Private	\$ —	\$ 8,103,570	\$ —

Transfers to/from Levels 1, 2, and 3 are recognized at the end of the reporting period. There were no transfers between levels for the three and six months ended June 30, 2021.

Level 1 instruments include investments in mutual funds invested in government securities. The Company uses inputs such as actual trade data, benchmark yields, quoted market prices from dealers or brokers, and other similar sources to determine the fair value of its investments.

The fair value of the Public Warrants issued in connection with the Public Offering and Private Placement Warrants were initially measured at fair value using a Monte Carlo simulation model. The fair value of Public Warrants issued in connection with the Initial Public Offering have been measured based on the listed market price of such warrants, a Level 1 measurement, since December 2020. The fair value of the Private Placement Warrants has subsequently been measured by reference to the trading price of the Public Warrants. For the three and six months ended June 30, 2021, the Company recognized a loss of approximately \$1.6 million and a gain of approximately \$3.1 million, respectively, to the condensed statement of operations resulting from changes in the fair value of derivative warrant liabilities on the accompanying condensed statement of operations.

**H.I.G. ACQUISITION CORP.**  
**NOTES TO CONDENSED FINANCIAL STATEMENTS**  
**(UNAUDITED)**

**Note 9 — Subsequent Events**

The Company evaluated subsequent events and transactions that occurred after the balance sheet date up to the date that the unaudited condensed financial statements were issued. Based on this review, the Company did not identify any subsequent events that would have required adjustment or disclosure in the unaudited condensed financial statements.

## **Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations.**

*References to the “Company,” “H.I.G. Acquisition Corp.,” “H.I.G. Acquisition,” “our,” “us” or “we” refer to H.I.G. Acquisition Corp. The following discussion and analysis of the Company’s financial condition and results of operations should be read in conjunction with the unaudited interim condensed financial statements and the notes thereto contained elsewhere in this report. Certain information contained in the discussion and analysis set forth below includes forward-looking statements that involve risks and uncertainties.*

### **Cautionary Note Regarding Forward-Looking Statements**

*This Quarterly Report on Form 10-Q includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Exchange Act. We have based these forward-looking statements on our current expectations and projections about future events. These forward-looking statements are subject to known and unknown risks, uncertainties and assumptions about us that may cause our actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by such forward-looking statements. In some cases, you can identify forward-looking statements by terminology such as “may,” “should,” “could,” “would,” “expect,” “plan,” “anticipate,” “believe,” “estimate,” “continue,” or the negative of such terms or other similar expressions. Factors that might cause or contribute to such a discrepancy include, but are not limited to, those described in our other SEC filings.*

### **Overview**

We are a blank check company incorporated as a Cayman Islands exempted company on September 2, 2020. We were formed for the purpose of effecting a merger, share exchange, asset acquisition, share purchase, reorganization or similar business combination with one or more businesses (the “Business Combination”). We are an emerging growth company and, as such, we are subject to all of the risks associated with emerging growth companies.

Our sponsor is H.I.G. Acquisition Advisors, LLC, a Cayman Islands limited liability company (the “Sponsor”). The registration statement for the Initial Public Offering was declared effective on October 20, 2020. We consummated the Initial Public Offering of 32,500,000 units (the “Units”) on October 23, 2020. Each Unit consisted of one Class A ordinary share and one-third of one redeemable warrant (“Public Warrant”). Each whole Public Warrant entitles the holder to purchase one Class A ordinary share at an exercise price of \$11.50 per share, subject to adjustment. The Units were sold at a price of \$10.00 per Unit, generating gross proceeds to us of \$325.0 million. We granted the underwriters in the Initial Public Offering (the “Underwriters”) a 45-day option to purchase up to 4,875,000 additional Units to cover over-allotments, if any. On November 25, 2020, the Underwriters partially exercised the over-allotment option and on December 1, 2020, purchased an additional 3,894,500 Units (the “Over-Allotment Units”), generating gross proceeds of approximately \$38.9 million, and incurred additional offering costs of approximately \$2.1 million in underwriting fees (inclusive of approximately \$1.4 million in deferred underwriting fees) (the “Over-Allotment”).

Simultaneously with the closing of the Initial Public Offering on October 23, 2020, we completed the first closing of the private placement (the “Private Placement”) and sold an aggregate 5,666,667 warrants (each, a “Private Placement Warrant, and together, the “Private Placement Warrants”) at a price of \$1.50 per Private Placement Warrant to the Sponsor, generating proceeds of \$8.5 million. Simultaneously with the closing of the Over-Allotment on December 1, 2020, we consummated the second closing of the Private Placement, resulting in the purchase of an aggregate of an additional 519,267 Private Placement Warrants by the sponsor, generating gross proceeds of approximately \$0.8 million.

Upon the closing of the Initial Public Offering, the Over-Allotment and the Private Placements, approximately \$363.9 million (\$10.00 per Unit) of the net proceeds of the sale of the Units in the Initial Public Offering, the Over-Allotment and the Private Placements were placed in a trust account (“Trust Account”) with Continental Stock Transfer & Trust Company acting as trustee and invested in money market funds investing solely in U.S. Treasuries and meeting certain conditions under Rule 2a-7 under the Investment Company Act, as determined by us, until the earlier of: (i) the completion of a Business Combination and (ii) the distribution of the Trust Account as described below.

Our management has broad discretion with respect to the specific application of the net proceeds of the Initial Public Offering, the Over-Allotment and the sale of Private Placement Warrants, although substantially all of the net proceeds are intended to be applied generally toward consummating a Business Combination. There is no assurance that we will be able to complete a Business Combination successfully. We must complete one or more initial Business Combinations having an aggregate fair market value of at least 80% of the net assets held in the Trust Account (excluding the deferred underwriting commissions and taxes payable on income earned on the Trust Account) at the time of the signing of a definitive agreement in connection with the initial Business Combination. However, we will only complete a Business Combination if the post-transaction company owns or acquires 50% or more of the outstanding voting securities of the target or otherwise acquires a controlling interest in the target sufficient for it not to be required to register as an investment company under the Investment Company Act 1940, as amended, (the "Investment Company Act").

If we are unable to complete a Business Combination within the Combination Period, we will (i) cease all operations except for the purpose of winding up; (ii) as promptly as reasonably possible but not more than ten business days thereafter, redeem the Public Shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the Trust Account, including interest earned on the funds held in the Trust Account and not previously released to us to pay our income taxes, if any (less up to \$100,000 of interest to pay dissolution expenses) divided by the number of the then-outstanding Public Shares, which redemption will completely extinguish Public Shareholders' rights as shareholders (including the right to receive further liquidation distributions, if any); and (iii) as promptly as reasonably possible following such redemption, subject to the approval of the remaining shareholders and the board of directors, liquidate and dissolve, subject in the case of clauses (ii) and (iii), to our obligations under Cayman Islands law to provide for claims of creditors and the requirements of other applicable law.

### **Liquidity and Capital Resources**

As of June 30, 2021, we had \$4,461 in our operating bank account, and working capital deficit of \$925,819.

Through June 30, 2021, our liquidity needs have been satisfied through a payment of \$25,000 from the Sponsor to pay for certain offering costs in exchange for issuance of the Founder Shares (as defined in Note 4), the loan under the Note of approximately \$237,000 (see Note 4), and the net proceeds from the consummation of the Private Placement not held in the Trust Account. We fully repaid the Note on October 23, 2020, and the facility is no longer available to the Company. In addition, in order to finance transaction costs in connection with an initial Business Combination, our officers, directors and initial shareholders may, but are not obligated to, provide us Working Capital Loans (see Note 4). As of June 30, 2021 and December 31, 2020, there were no amounts outstanding under any Working Capital Loans.

Based on the foregoing, management believes that we will have sufficient working capital and borrowing capacity from our Sponsor or an affiliate of our Sponsor, or certain of our officers and directors to meet its needs through the earlier of the consummation of a Business Combination or one year from this filing. Over this time period, we will be using these funds for paying existing accounts payable, identifying and evaluating prospective initial Business Combination candidates, performing due diligence on prospective target businesses, paying for travel expenditures, selecting the target business to merge with or acquire, and structuring, negotiating and consummating the Business Combination.

Management continues to evaluate the impact of the COVID-19 pandemic on the industry and has concluded that while it is reasonably possible that the virus could have a negative effect on our financial position, results of our operations and/or search for a target company, the specific impact is not readily determinable as of the date of the financial statements. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

---

## Results of Operations

Our entire activity since inception up to June 30, 2021 was in preparation for our formation and since our Initial Public Offering, our activity has been limited to the search for a prospective initial Business Combination. We will not be generating any operating revenues until the closing and completion of our initial Business Combination.

For the three months ended June 30, 2021, we had a net loss of approximately \$2.2 million, which consisted of approximately \$580,000 in general and administrative expenses, \$30,000 in administrative expenses – related party, approximately \$1.6 million change in the fair value of derivative warrant liabilities, and approximately \$9,000 in net gain from investments held in Trust Account.

For the six months ended June 30, 2021, we had a net income of approximately \$1.2 million, which consisted of approximately \$1.9 million in general and administrative expenses, \$60,000 in administrative expenses – related party, offset by approximately \$3.1 million in change in fair value of derivative warrant liabilities, and approximately \$18,000 in net gain from investments held in Trust Account.

## Contractual Obligations

### *Registration and Shareholder Rights*

The holders of Founder Shares, Private Placement Warrants and warrants that may be issued upon conversion of Working Capital Loans (and any Class A ordinary shares issuable upon the exercise of the Private Placement Warrants and warrants that may be issued upon conversion of Working Capital Loans) are entitled to registration rights pursuant to a registration and shareholder rights agreement. These holders will be entitled to certain demand and “piggyback” registration rights. However, the registration and shareholder rights agreement provide that we will not permit any registration statement filed under the Securities Act to become effective until the termination of the applicable lock-up period for the securities to be registered. We will bear the expenses incurred in connection with the filing of any such registration statements.

### *Underwriting Agreement*

We granted the underwriters a 45-day option from the final prospectus relating to the Initial Public Offering to purchase up to 4,875,000 additional Units to cover over-allotments, if any, at the Initial Public Offering price less the underwriting discounts and commissions. On November 25, 2020, the underwriters partially exercised the over-allotment option and on December 1, 2020, purchased an additional 3,894,500 Over-Allotment Units, generating gross proceeds of approximately \$38.9 million, and incurring additional offering costs of approximately \$2.1 million in underwriting fees (inclusive of approximately \$1.4 million in deferred underwriting fees).

The underwriters were entitled to an underwriting discount of \$0.20 per unit, or \$7.3 million in the aggregate, paid upon the closing of the Initial Public Offering and Over-Allotment. In addition, \$0.35 per unit, or approximately \$12.7 million in the aggregate will be payable to the underwriters for deferred underwriting commissions. The deferred fee will become payable to the underwriters from the amounts held in the Trust Account solely in the event that we complete a Business Combination, subject to the terms of the underwriting agreement.

## Critical Accounting Policies

### *Class A Ordinary Shares Subject to Possible Redemption*

Class A ordinary shares subject to mandatory redemption (if any) are classified as liability instruments and are measured at fair value. Conditionally redeemable Class A ordinary shares (including Class A ordinary shares that feature redemption rights that are either within the control of the holder or subject to redemption upon the occurrence of uncertain events not solely within our control) are classified as temporary equity. At all other times, Class A ordinary shares are classified as shareholders' equity. Our Class A ordinary shares feature certain redemption rights that are considered to be outside of our control and subject to occurrence of uncertain future events. Accordingly, at June 30, 2021 and December 31, 2020, 32,441,448 and 32,318,763 Class A ordinary shares subject to possible redemption at the redemption amount were presented at redemption value as temporary equity, outside of the shareholders' equity section of our condensed balance sheets.

### *Net Income (Loss) per Ordinary Shares*

We comply with accounting and disclosure requirements of FASB ASC Topic 260, "Earnings Per Share." Net income (loss) per common share is computed by dividing net income (loss) by the weighted average number of shares of ordinary shares outstanding during the period. We have not considered the effect of the warrants sold in the Initial Public Offering and Private Placement to purchase an aggregate of 18,317,434 of our ordinary shares in the calculation of diluted loss per share, since the exercise of the warrants are contingent upon the occurrence of future events and the inclusion of such warrants would be anti-dilutive.

Our unaudited condensed statements of operations include a presentation of income per share for ordinary shares subject to redemption in a manner similar to the two-class method of income per share. Net income per ordinary share, basic and diluted for Class A ordinary shares are calculated by dividing the interest income (loss) earned on investment securities held in the Trust Account, net of applicable taxes available to be withdrawn from the Trust Account, which was approximately \$9,000 for the three and six months ended June 30, 2021, by the weighted average number of Class A ordinary shares outstanding for the period. Net income per ordinary share, basic and diluted for Class B ordinary shares for the three and six months ended June 30, 2021 is calculated by dividing the net income (loss) of approximately \$(2.2) and \$1.2 million, less income attributable to Class A ordinary shares, by the weighted average number of Class B ordinary shares outstanding for the period.

### *Recently Issued Accounting Standards*

In August 2020, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2020-06, Debt — Debt with Conversion and Other Options (Subtopic 470-20) and Derivatives and Hedging — Contracts in Entity's Own Equity (Subtopic 815-40) ("ASU 2020-06") to simplify accounting for certain financial instruments. ASU 2020-06 eliminates the current models that require separation of beneficial conversion and cash conversion features from convertible instruments and simplifies the derivative scope exception guidance pertaining to equity classification of contracts in an entity's own equity. The new standard also introduces additional disclosures for convertible debt and freestanding instruments that are indexed to and settled in an entity's own equity. ASU 2020-06 amends the diluted earnings per share guidance, including the requirement to use the if-converted method for all convertible instruments. ASU 2020-06 is effective January 1, 2022 and should be applied on a full or modified retrospective basis, with early adoption permitted beginning on January 1, 2021. We are currently assessing the impact, if any, that ASU 2020-06 would have on its financial position, results of operations or cash flows.

Our management does not believe that any other recently issued, but not yet effective, accounting standards, if currently adopted, would have a material effect on our financial statements.

### **Off-Balance Sheet Arrangements**

As of June 30, 2021, we did not have any off-balance sheet arrangements as defined in Item 303(a)(4)(ii) of Regulation S-K.

### **JOBS Act**

The Jumpstart Our Business Startups Act of 2012 (the "JOBS Act") contains provisions that, among other things, relax certain reporting requirements for qualifying public companies. We qualify as an "emerging growth company" and under the JOBS Act are allowed to comply with new or revised accounting pronouncements based on the effective date for private (not publicly traded) companies. We are electing to delay the adoption of new or revised accounting standards, and as a result, we may not comply with new or revised accounting standards on the relevant dates on which adoption of such standards is required for non-emerging growth companies. As a result, the financial statements may not be comparable to companies that comply with new or revised accounting pronouncements as of public company effective dates.

Additionally, we are in the process of evaluating the benefits of relying on the other reduced reporting requirements provided by the JOBS Act. Subject to certain conditions set forth in the JOBS Act, if, as an "emerging growth company," we choose to rely on such exemptions we may not be required to, among other things, (i) provide an auditor's attestation report on our system of internal controls over financial reporting pursuant to Section 404, (ii) provide all of the compensation disclosure that may be required of non-emerging growth public companies under the Dodd-Frank Wall Street Reform and Consumer Protection Act, (iii) comply with any requirement that may be adopted by the PCAOB regarding mandatory audit firm rotation or a supplement to the auditor's report providing additional information about the audit and the financial statements (auditor discussion and analysis) and (iv) disclose certain executive compensation related items such as the correlation between executive compensation and performance and comparisons of the CEO's compensation to median employee compensation. These exemptions will apply for a period of five years following the completion of our Initial Public Offering or until we are no longer an "emerging growth company," whichever is earlier.

**Item 3. Quantitative and Qualitative Disclosures About Market Risk**

We are a smaller reporting company as defined by Rule 12b-2 of the Exchange Act and are not required to provide the information otherwise required under this item. As of June 30, 2021, we were not subject to any market or interest rate risk. The net proceeds of the Initial Public Offering, including amounts in the Trust Account, will be invested in investments in mutual funds invested in government securities with a maturity of 185 days or less or in that meet certain conditions under Rule 2a-7 under the Investment Company Act of 1940, as amended, that invest only in direct U.S. government treasury obligations. Due to the short-term nature of these investments, we believe there will be no associated material exposure to interest rate risk.

We have not engaged in any hedging activities since our inception and we do not expect to engage in any hedging activities with respect to the market risk to which we are exposed.

**Item 4. Controls and Procedures***Evaluation of Disclosure Controls and Procedures*

Under the supervision and with the participation of our management, including our principal executive officer and principal financial and accounting officer, we conducted an evaluation of the effectiveness of our disclosure controls and procedures as of the end of the fiscal quarter ended June 30, 2021, as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act. Based upon that evaluation and in light of the SEC Staff Statement, our warrants as liabilities, our disclosure controls and procedures were not effective as of June 30, 2021 due solely to the material weakness in our internal control over financial reporting described below in “Changes in Internal Control Over Financial Reporting.”

In light of this material weakness, we performed additional analysis as deemed necessary to ensure that our financial statements were prepared in accordance with U.S. generally accepted accounting principles. Accordingly, management believes that the financial statements included in this Quarterly Report on Form 10-Q present fairly in all material respects our financial position, results of operations and cash flows for the period presented. We do not expect that our disclosure controls and procedures will prevent all errors and all instances of fraud. Disclosure controls and procedures, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the disclosure controls and procedures are met. Further, the design of disclosure controls and procedures must reflect the fact that there are resource constraints, and the benefits must be considered relative to their costs. Because of the inherent limitations in all disclosure controls and procedures, no evaluation of disclosure controls and procedures can provide absolute assurance that we have detected all our control deficiencies and instances of fraud, if any. The design of disclosure controls and procedures also is based partly on certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions.

*Changes in Internal Control over Financial Reporting*

We have commenced our remediation efforts in connection with the identification of the material weakness discussed above and have taken the following steps during the quarter ended June 30, 2021:

- We have implemented procedures intended to ensure that we identify and apply the applicable accounting guidance to all complex transactions.
- We are establishing additional monitoring and oversight controls designed to ensure the accuracy and completeness of our consolidated financial statements and related disclosures.

While we took considerable action to remediate the material weakness, such remediation has not been fully evidenced. Accordingly, we continue to test our controls implemented in the second quarter to assess whether our controls are operating effectively. While there can be no assurance, we believe our material weakness will be remediated during the course of fiscal 2021.

Other than the changes discussed above, there have been no changes to our internal control over financial reporting during the quarter ended June 30, 2021 that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.”

**PART II - OTHER INFORMATION****Item 1. Legal Proceedings**

None.

**Item 1A. Risk Factors**

As of the date of this Quarterly Report on Form 10-Q, there have been no material changes to the risk factors disclosed in our Form 10-K filed with the SEC on March 30, 2021 and Form 10-K/A filed with the SEC on May 24, 2021. We may disclose changes to such factors or disclose additional factors from time to time in our future filings with the SEC.

**Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.**

None.

**Item 3. Defaults upon Senior Securities**

None.

**Item 4. Mine Safety Disclosures.**

Not applicable.

**Item 5. Other Information.**

None.

**Item 6. Exhibits.**

I, Brian D. Schwartz, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q for the quarter ended June 30, 2021 of H.I.G. Acquisition Corp.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) for the registrant and have:
  - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - b. [Paragraph omitted pursuant to SEC Release Nos. 33-8238/34-47986 and 33-8392/34-49313];
  - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officers and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal controls over financial reporting.

(Principal Executive Officer)

**CERTIFICATION PURSUANT TO  
18 U.S.C. SECTION 1350, AS ADOPTED PURSUANT TO  
SECTION 906 OF THE SARBANES-OXLEY ACT OF 2002**

In connection with the Quarterly Report of H.I.G. Acquisition Corp. (the "Company") on Form 10-Q for the quarter ended June 30, 2021, as filed with the Securities and Exchange Commission on the date hereof (the "Report"), I, Timur Akazhanov, Chief Financial Officer, certify, pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, that, to my knowledge:

- (1) the Report fully complies with the requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934; and
- (2) the information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.

Date: August 16, 2021
